Education

- **Bachelor Degree in Computer Application**, Guwahati University 2020 – 2023
- **12th, Science - PCM**, Pandu College 2019 – 2020

Work Experience

- **Software Developer L1 - Wipro** Jun 2025 – Present
 - **Fresh Start:** Joined Wipro as a Software Developer L1, beginning my professional journey in the IT industry.
 - **Focused Training:** Currently undergoing intensive training to build strong foundations in software development, system design, and industry best practices.
 - **Continuous Upskilling:** Actively sharpening skills in Java, problem-solving, and backend technologies to prepare for real-time project contributions.
 - **Growth-Oriented Mindset:** Embracing a learning-first approach to grow as a well-rounded developer and contribute meaningfully in future projects.
- **Learning Fellow Intern - C-DAC** Sep 2024 – Feb 2025
 - **Diverse Skill Set:** Focused on developing expertise in core technologies such as Linux, Python, Java, AI, and cloud computing to enhance high-performance computing applications.
 - **High-Performance Focus:** Investigated advanced high-performance computing systems to understand cutting-edge architectures.
 - **Hands-On Experience:** Engaged in hands-on projects leveraging supercomputing and advanced technologies for real-world challenges.
- **Frontend Developer Internship - Codsoft** May 2024 – July 2024
 - **Individual Project:** Developed a blogging platform, improving coding skills and advancing expertise in web development.
 - **Group Project:** Collaborated on a project management tool, conducting daily meetings and enhancing teamwork.
 - **Problem Solving:** Redesigned UI, increasing user satisfaction by 25%.
 - **Successful Completion:** Contributed to successful project delivery and gained teamwork experience.
- **General Manager - The Detailing Company** Jan 2024 – Aug 2024
 - **Strategic Collaboration:** Worked with cross-functional teams to prioritize key features and business goals.
 - **Digital Growth:** Implemented digital systems and marketing strategies to drive business performance.
 - **Team Leadership:** Led a team of juniors and seniors, encouraging collaboration and respect.

Skills

- HTML, CSS, JavaScript, Java
- Responsive Design, Linux, Git
- Debugging and Troubleshooting
- Database Management Systems

Project Experience - BCA

- **Tourist Destination Tracker:** Developed a web project that provided real-time updates on tourist destinations.
 - **Real-Time Updates:** Visitors received live updates on destination status, ensuring accurate travel planning.
 - **Tech Stack:** HTML, CSS, JavaScript, PHP, MySQL for a dynamic and responsive interface.
 - **Team Collaboration:** Enhanced communication and project management skills through teamwork.

Self-Learning Projects

- **Therapist Care** – A digital mental wellness platform built to address real-life emotional and psychological challenges through accessible tools and content.
 - **Virtual Therapy Support:** Connects users with online therapy options and helpful resources.
 - **Meditation & Mindfulness:** Offers guided meditation sessions to help reduce stress and anxiety.
 - **Self-Help Resources:** Curates book recommendations, articles, and personal growth guides.
 - **Motivational Content:** Includes quotes, short stories, and mental clarity exercises.
 - **User-Centered Design:** Built with a clean, responsive UI to ensure ease of use and accessibility.
 - **Ongoing Project:** Continuously expanding features and refining the platform to better support mental well-being.
- **Weather App** – A simple weather application that fetches real-time data using a public API. Built using JavaScript, styled with CSS, and focused on minimalistic design with accurate live updates.
